IMPORTANT INFORMATION
3.1 STUDENTS’ WELFARE BOARD

Overview
The Students Welfare Board (SWB) aims to promote the social-psychological and cultural growth of the students through a host of activities conducted all through the year. The board organises various intra and inter-college/university cultural and sports events. It also picks up different social causes prevailing in the society and organises awareness programmes for the students. All the constituent institutes of the university have a dedicated SWB coordinator that operates and manages tasks at the institute level.

Cultural Events & Sports Activities
The University promotes the overall development of a student and in addition to academics, it emphasises participating in different extracurricular activities. The campus is well equipped with the necessary state-of-the-art infrastructure to facilitate all types of cultural and sports activities.

The SWB puts together various cultural activities that lead to the development of skills and provides a platform for the students to showcase their talent. In NUZEAL, an annual Intra-Institute Cultural Festival, the board hosts events like Music, Dance, Theatre, Fine-Arts, Literary, and Personality Contest etc. Garba, the traditional dance form of Gujarat, is loved and enjoyed by people from all sections of society and across all age groups during Navratri. An annual Ras-Garba Mahotsav, RAMZAT is organised on the first Saturday after Navratri for the members of the Nirma University family. In addition, several other cultural festivals are organised by the institutes.

The university encourages students to participate in sports and other physical exercises regularly as it stimulates the mind, body and the spirit. Individual sports teach to motivate oneself whereas team sports imbibe accountability, leadership, teamwork and other skills. The university hosts ABHIMANU, an annual inter-university sports competition that attracts participation from universities across India. The board also organises an Annual Sports Meet for the university students which includes team events, individual events and track and field events.

The SWB arranges various drives like swachhta, plantation and blood donation drive from time to time. The board also addresses social issues through One Act Play, and intra-institute drama competition.

The University also encourages the participation of the students in the events organised by other colleges, institutes and universities. The board also prepares a team that represents the University in the Association of Indian Universities (AIU) sports and cultural events, and various state and national level competitions organised by government and private institutions.
In addition, the board also arranges for Adventure activities like mountaineering camps in the foothills of the Himalayas and Desert Safaris in Rajasthan from time to time.

**Celebration of National and International Days**

Every year on Independence Day and Republic Day the SWB organises a flag hoisting ceremony on the campus. Renowned dignitaries from various walks of life are invited as the chief guest. A photo exhibition and patriotic song competition are also organised on these days.

Besides this, as part of the World Yoga Day celebration on June 21, all the university officials gather at the campus and perform yoga under the supervision of a yoga expert, every year.

**National Service Scheme (NSS)**

Aimed at developing the students’ personality through community service, the National Service Scheme is a voluntary association of students in higher secondary schools, colleges, and at universities working for strengthening the campus-community linkage. NSS is an Indian government-sponsored public service programme conducted by the Ministry of Youth Affairs and Sports since 1969.

Nirma University has a vibrant NSS programme wherein the students from all the institutes participate and contribute to the well-being of the neighbouring community. Regular activities are held from time to time, and annual seven-day special camps known as special camps are held in a rural village or a city suburb. Some of the villages adopted by the constituent institutes of the university are Motipura, Miroli, Khodiyar, Jaspur, Valad, Vautha, and Kavitha. Volunteers are involved in activities, such as cleaning, afforestation, stage-shows, awareness rallies, and health and hygiene camps.

NSS volunteers who have served for at least two years and have performed 240 hours and participated in a special camp of social work are awarded a certificate.

NSS cell has allocated 800 volunteers to Nirma University. The institute-wise allocation of the volunteers is as under:

3.2.2 SCHEME TO PROMOTE RESEARCH AND INNOVATION AMONGST THE STUDENTS

Objectives
The Mission statement of Nirma University emphasises on all round development of its students. It is accomplished through various means, including the curriculum, skill building trainings and workshops, encouraging student participation in extra and co-curricular activities, etc. Apart from these, it is also necessary to promote the activities of research and innovation amongst the students. In fact, student research is considered as an integral part of a learner-centered institution. Further, it is proved that the involvement of students in research activities enhances their class-room learning, instigate them to independent thinking and boost their confidence.

The research at UG and PG level is also emphasised in the Research Policy of Nirma University. Accordingly, the University and its constituent institutes encourage student research by formal and informal ways. The consistent student performance in prestigious technical competitions like, Robocon, SAE BAJA, Mitsubishi Electric Cup, Moot Court Competitions, Business Idea Competition is the evidence of efforts in encouraging students for research and innovation.
Structure to Promote Research and Innovation amongst the Students

At present, the students enrolled under the University can be divided into three categories: (i) the PhD Students. (ii) the PG Students, and (iii) the UG Students. It is very much necessary to encourage students at all the three levels for the activities of research and innovation.

At PhD level, the students are carrying out their research work on focused areas under designated Research Supervisors/Guides with the overall supervision of the Dean – Faculty of Doctoral Studies and Research. The research activities at this level need to be scaled up with more emphasis on quality research outcomes in form of publications, prototypes, patents, etc.

At Postgraduate level, the research activities are promoted and monitored by the concerned HoI, HoD/Area Chair and Programme Coordinators. These activities need to be strengthened by way of more academic rigour, advanced level courses, improving the lab facilities, emphasising on the quality of the thesis, encouraging students for publishing in peer reviewed journals, etc.

It is felt that more intensive efforts are required to encourage the UG students to participate in the research activities. The students need to be motivated to participate in Idea Lab activities, project based/experiential learning, internship with premier institutes/ research organisations/industries, preparation for career in research, organising events of research, etc. Looking to the mass of the UG students and the efforts need to be put in, it is proposed to have a senior level faculty as the UG Research Coordinator/UG Research Chair at each constituent institute. This Coordinator should be made responsible to promote research and innovation at the UG level in consultation with the concerned HoI and the Institute Level Research Committee. He/She will also coordinate with the Directorate of Research and Innovation.

Ways to Promote Research and Innovation amongst the Students

In general, there are two ways of promoting research and innovation amongst the students, i.e. Formal and Informal Ways. The formal ways include:

i) Through Curriculum, Courses
ii) Project Based Learning/Experiential Learning Approach
iii) Structured Internship, Industrial Training, Field Trips, etc.
iv) Research Training Programmes, Research Methodology, Paper Writing workshops
v) Provision of Scholarship/Stipend for PG, PhD and Post-Doctoral Fellow

It is proposed to further reinforce research at all levels (UG, PG and PhD) by having courses on creativity & innovations, minor & major projects, hands-on-training, internship, industrial visits, etc.

The UG students should be encouraged to pursue their career in research. To achieve this goal, the institutes should offer special elective courses with emphasis on research and innovation to the interested students. Such electives may include: courses like Research Methodology, Course on Wheel, Seminar, Research Projects, Research Surveys, Simulation/Experimental Studies, etc. The course content should cover problem solving, laboratory experiments, design & simulations, hands-on exercises, development of prototypes/models, research reading & writing, etc. It is expected that after completion of such courses, the students should produce publishable/patentable work. It is proposed that approximately 10 % of the total students should be given the opportunity to take up such courses.
A course on ‘Research Methodology’ covering the contents such as, Objectives of Research, Types of Research, Identifying Research Topic, Literature Reviewing Techniques, Writing Research Paper, Patents & Copy Rights, Avoiding Plagiarism, Tools for Research, etc should be given importance at both PG and PhD Level. It is also proposed to organise introductory training programmes on appropriate topics from the above list for the UG students to inculcate research from the beginning.

The Institute of Technology offers a very unique master level programme titled MTech by Research. This programme is aimed at those students who are interested in exposure to in-depth research in different disciplines. The programme emphasises on multidisciplinary and rigorous learning and research work. More awareness of this programme should be given to the stakeholders including the aspirant candidates of recognised research centres. Further, similar kind of programmes may be initiated at other constituent institutes of the University in an appropriate way.

To promote applied and basic research, the University has started the PhD (Full time/Part time) programmes in Engineering, Management, Pharmacy, Science, Law and Architecture. All the PhD programmes have course work, followed by rigorous research. It is proposed to strengthen the existing PhD programmes by way of attracting meritorious students with worthy stipend, contingency grant, travel grant, etc. Further, the PhD research can be strengthened by way of encouraging the students to publish their work in the journals indexed by the Scopus and Web of Science. Wherever possible, the students may be allowed to go to the Foreign Universities/Research Organisations/Research Laboratories for a short duration to carry-out their research work, to study advanced courses, etc with proper approvals.

Apart from the formals ways, there are many other ways by which the Research and Innovation can be promoted amongst the students. These include:

i) Creating a Blog of Ideas
It is known that the young minds are very creative and full of enthusiasm. They have many innovative ideas, but due to non-availability of suitable platform, the ideas cannot be implemented. Sometimes, for a single innovative idea, there can be multiple approaches to convert it into product/prototype. Such multiple approaches can be inter-disciplinary in nature and may come from the students of different disciplines. For this, it is necessary to have a Blog of the students’ ideas and access to such Blog may be given to all the students and faculty members of Nirma University. With this background, it is proposed to have a mechanism of collecting students’ ideas and sharing it on a common platform. This activity may be further augmented by having competition of best ideas, encouraging students of different discipline/institute to work on these ideas, providing funding to the selected ideas through Idea Lab, etc.

ii) Through Idea Lab Projects
An Idea Lab is functional at Institute of Technology. The main objective of the Idea Lab is to motivate students to think, conceptualise and realise their ideas. It provides an opportunity to the students to validate their ideas through guided research. The Idea Lab boosts confidence of the students and also encourages them to publish and patent their research work. In last five years, many projects have been funded by the University under the Idea Lab.
Looking to the success of the Idea Lab concept, it is proposed to have such Idea Labs in each constituent institute of the University. The necessary budget should be allocated to each institute for Idea Lab. The Institute should evolve a structured mechanism for (a) Awareness of Idea Lab amongst the students, (b) Calendar for inviting proposals under the Idea Lab, (c) Mechanism for allotment of Fund, (d) Strategy for monitoring the progress of Idea Lab projects, (e) Compilation of the outcomes of the Idea Lab projects in form of a booklet, (f) Mechanism of showcasing the Idea Lab projects through exhibition/social media/website/newspaper, etc.

iii) Providing Platform to Showcase Research Outcomes/Research Skills
For promotion of research amongst the students, it is also necessary to provide them platform to showcase their research skills and research outcome. This will also motivate other students to involve themselves to different activities of research and innovation. For showcasing research talent and the research outcomes, the University and constituent institutes should organise technical festivals, events, seminars, workshops and dedicated student conferences on regular basis. In fact, the best project/design/model competition (for final year UG and PG), paper/poster/business idea presentation, moot court competition, doctoral student conference should become the integral part of the annual academic calendar.

These can be strengthened by way of preparing annual calendar of such events, deciding themes, involving students in organising committee, ensuring maximum student (UG, PG and Ph.D.) participation, proper documentation of the events and the outcomes, budget provision, etc.

iv) Encouraging the Students to Participate in Competitions/Conferences organised by the Leading Industries/Institutes/Universities/Organisations
The University students are participating in different competitions/events organised by industries, professional bodies, institutes, etc and bringing many laurels. Considering these, it will be appropriate to formalise this by way of identifying such national/international events, providing necessary mentoring, R & D facilities and support to the students, encouragement by way of awards and incentives, setting up system of peer to peer learning, providing academic support, necessary budget provision in the annual budget, etc.

iv) Encouraging the Students to Apply for the Government R&D Schemes, Research Awards, Membership of Professional Organisations, etc.
There are many R & D funding schemes available from the Government of India, like INSPIRE, Young Scientist Scheme, Women Scientist Scheme, Prime Minister Scholarship Scheme, Visvesvaraya PhD Scheme, Schemes from the INSA, etc. There are Travel Grants also available to attend International conferences. Apart from these, very prestigious international funding schemes available for the students, including the Fulbright Scholarship, DAAD scholarship, etc. The Institutes should motivate the students to take benefits of such schemes. The students should also be encouraged to apply for the travel grants, prestigious research awards, take the memberships of professional national and international bodies, etc.

v) Through Student Associations
The student associations are very active across the University. Theme based seminars, exclusive student conferences, research orientation programmes may also be organised with the support of industry, R&D Organisations, NGOs and government funding agencies through the Student Associations.
vi) Leveraging the Alumni Support for Promotion of Student Research
Nirma University Alumni are spread across the country and has a strong industry reach. Many of its alumni members are in top-level positions in reputed private and public sector as well as R & D organisations. A considerable number of alumni have successful overseas career also. The senior alumni should be invited to share their experiences with the existing students through guest lectures, seminars, conferences, workshops, etc. They should also be invited as mentors for the student projects, internship, incubates, etc. The Alumni Associations may constitute awards, travel grants, etc for the outstanding student researchers.

vii) Encouraging the Students’ Innovation
Young minds are very creative and they should be encouraged to make innovations by using the principles of science, technology and other means. These innovations may include new ideas, development of gadgets/products, software application, better version of the existing system, new strategy, new model, better technique or enhanced process that result into improving the quality of life, societal benefit, social welfare, etc. It is proposed to encourage the students’ innovation by way of organising a competition of students’ innovations. Such competition can be a yearly event, where students make presentation of their innovations before a jury. Based on the novelty of innovation and its application for the societal benefits, three prizes/awards may be declared. The winners should be felicitated by mementos and Certificates of Appreciation.

Ways to Promote Research and Innovation amongst the Students
The following ways are to be considered for the students participating/preparing for the prestigious national/international technical/professional competitions:

[A] Academic Support and Leave Consideration

iii) Leave for the actual number of days plus days for travelling for participating in the competition.
iv) If the leave requirement is more than 10 days for the preparation, the matter will be considered as a special case. Based on the recommendations by the Faculty Mentor, concerned Head/Area Chair and the HoI, the Appeal Committee may condone the leave.

[B] Financial Support
For the prestigious State/National/International technical/professional competitions, research events, the Institute may provide financial support in terms of purchase of equipment, software, chemical, consumables, books/journals, travel and stay etc. For all such expenses, necessary budget provision is to be made by the concerned Department/Institute for each financial year. The approval for such budget is to be obtained from the Director General.

The food, accommodation and travel expenses will be reimbursed for the participants of the competitions as per the University Policy.
Note: The benefit of above (Leave Consideration and Financial Assistance) will only be given for the prestigious state/national/international competitions, events, etc based on the level of the event, nature of competition, credentials of the organisers, benefits to the participants and the Institute / University, etc

[C] Travel Grant for Attending International Conference to the UG and PG Students
The University has framed guidelines for granting financial aids to the full-time PhD students for attending International seminar/conference. On the similar line, partial financial aid should be given to the UG and PG students for attending and presenting their research outcomes at the prestigious international conferences, provided that the student has received partial financial support from the external agencies. The norms for awarding such financial aids, the procedure for application and approval will remain same as that of the guidelines for granting financial aids to the full-time PhD students.

Awards and Incentives to the Students for Outstanding Research Achievements
Apart from the leave consideration and financial support, the outstanding student researchers and the winners of the national / international technical / professional events should also be encouraged by:
